• This is Enviro Curb Manufacturing Inc.

The Enviro Curb group is a fresh new approach, created to provide Quality Recycled Plastic Products in a wide range of sectors. They include benches, tables, flower planters, trash receptacles, recycling and container systems, composting units and various other eco products.

Our office is located in, Ottawa, Ontario Canada. Our firm includes manufacturing and distribution together with a full compliment of professional sales staff, technical engineering and support staff who represent a diverse field of expertise.

Our firm is dedicated to providing excellent maintenance free products with a commitment to make a difference.

We enjoy developing sound working relationships with our clients so that together we can realize creative solutions. We understand the importance of educating the public and work with a collaborative philosophy of respect. All stakeholders partner with each other to sustain a hands-on role with the development and manufacturing of any product.

• Direction Statement

Today's business environment may be characterized by rapid changes and buying habits with consumer requirements, advanced information technologies and competitive scope.

The result of these trends requires for more and more quality service, price performance and the development of solutions for the present with a vision for the future.

In 2015, customers will expect the need for better price performance, service excellence and quality state of the art operations. Our products and services must be excellent when compared to the best our client offers.

Service Excellence: This applies to the range of services offered.

Service Quality: This is determined by the skills and attitudes of the employees serving customers, the processes, procedures and support systems used by Stakeholders.

State-of-the-art products and services are required by our customers to provide for continuous improvements in their business / personal effectiveness and well being.

Our aim simply stated, is to understand how your organization operates and to provide the a great product that reflects your organization's needs and wants.

• Direction Statement

At Enviro Curb major initiatives are in place to create, enhance and better manage important alliances. These thrusts must continue to ensure quality results. Our understanding and commitment will make a difference with speed as the major factor that supports our customers expectation.

"We will focus at excelling in customer satisfaction."

We will work with partners who can help us deliver key service attributes in a timely and effective manner.

Leadership, teamwork, effective structures and processes, core competencies are characteristics of successful organizations. Our firms structure provides for these characteristics.

"We will ensure these develop and flourish."

Enviro Curb works with experienced professional and technical staff, accountable and dedicated.

"We have the confidence to produce the desired results you wish to achieve and carry our partnership forward on this exciting journey. "

• Approach and Methodology

APPROACH

Our concept is divided into phases which reflect the logistics of planning and selling products to consumers in Canada. A rational straight forward work methodology is a very important element of the project implementation. If strictly adhered to it avoids confusion, provides assurance of success and allows our partnership some manner of control over the success of our product.

METHODOLOGY

Our work begins with Education, Specification, Savings and Results.

BRANDING

Our eco name and Trademark **Enviro Curb** can be offered to any group for licensing to better identify eco friendly products under a Private Banner.

* Enviro Curb – is a trademark of Enviro Curb Manufacturing Inc.
